TANRISE CITY SIDOARJO

Market Understanding & Strategic Positioning Proposal

SLIDE 01 — COVER

TANRISE CITY SIDOARJO

Creating a City for Active Living, Discovery, and Connection
Market Understanding, Competitive Landscape & Strategic Direction

---

SLIDE 02 — THE BELIEF

The true value of a city lies beyond its physical development, in its ability to enrich everyday life, inspire discovery, and foster meaningful connections.

SLIDE 03 — THE STRATEGIC APPROACH

A meaningful destination begins where place, people, and experiences come together.

PLACE
The character, potential, and opportunities of Sidoarjo to create a destination with a distinct sense of place.

PEOPLE
The lifestyles, aspirations, and everyday moments that bring people together and give a place meaning.

EXPERIENCE
Places to explore, activities to enjoy, and shared experiences that make every visit meaningful.

SLIDE 04 — THE APPROACH

From market understanding to a clear development direction.

01 — Market & Regional Overview
Understand the economic setting and potential demand.

02 — Site & Surrounding Review
Identify the location's opportunities and constraints.

03 — Competitor & Corridor Benchmarking
Examine how other developments establish relevance.

04 — Market Gaps & Opportunities
Identify needs and opportunities to validate.

05 — City Positioning & Strategic Direction
Translate the findings into a clear proposition.

SLIDE 05

01 — MARKET & REGIONAL OVERVIEW

SLIDE 06 — THE ECONOMIC FOUNDATION

An Industrial Economy. A City of Growing Possibilities.

Sidoarjo's economic strength is built around a substantial industrial and manufacturing base, creating an important foundation for employment, entrepreneurship, and regional economic activity.

5.63%	**49.45%**	**Rp319.25T**
Economic Growth 2025 · Sidoarjo	Manufacturing Contribution Share of 2025 regional GDP	Regional Economy 2025 GDP, current prices

Source: BPS Kabupaten Sidoarjo, Economic Growth 2025.

An economy driven by industry creates an opportunity to serve the lives built around it.

Sidoarjo's economy provides the foundation. The opportunity lies in creating a city that enriches the lives of the people behind it.

SLIDE 07 — THE REGIONAL OPPORTUNITY

Connected to a Greater Economy. Positioned for a More Complete Way of Life.

Sidoarjo is part of the Greater Surabaya metropolitan ecosystem, connecting industrial activity, employment, commerce, and regional mobility.

Strategic Strength	Key Opportunity
01 — Metropolitan Connectivity	Access to Surabaya's employment, business, and commercial ecosystem.
02 — Industrial & Economic Growth	An established industrial base supporting professionals, entrepreneurs, and households.
03 — Regional Accessibility	Connections to transport infrastructure, services, and lifestyle destinations.

SLIDE 08 — CONNECTED TO THE INDUSTRY

An Established Aviation Gateway Strengthens Sidoarjo's Potential as a Place to Live, Work, and Connect.

13.5M

Four Potential Audience Segments:

01 — Family & Living

Homes and environments that support different generations and stages of life.

02 — Work & Opportunity

Convenience and connectivity that complement professional and business routines.

03 — Lifestyle & Discovery

More choices for recreation, dining, exploration, and everyday enjoyment.

04 — Connection & Belonging

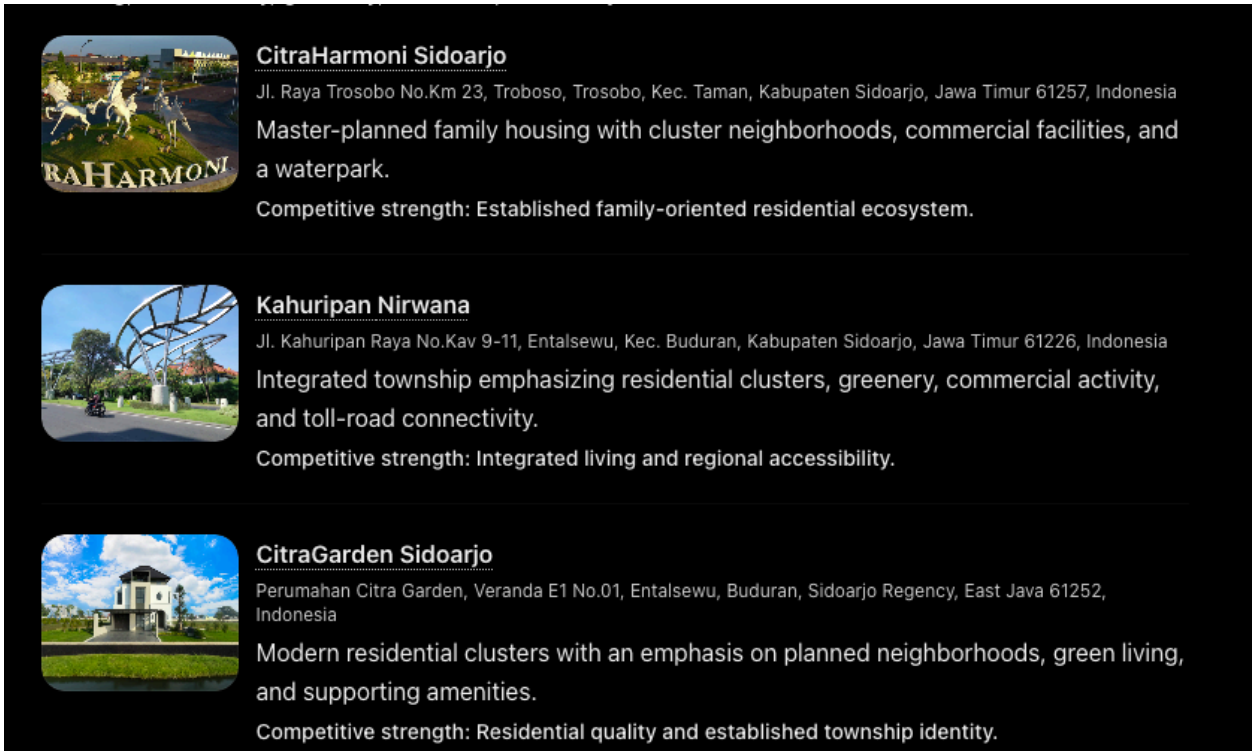

Shared spaces and experiences that encourage meaningful social interaction.

SLIDE 10 — THE EXISTING TOWNSHIP LANDSCAPE

A Growing Residential Market. An Opportunity to Redefine Everyday Living.

Market Dimension	Existing Condition	Opportunity for Tanrise City Sidoarjo
Housing	Established cluster-based residential developments	More diverse residential choices across household life stages
Lifestyle	Amenities concentrated in existing townships and commercial areas	A connected collection of lifestyle and leisure destinations
Community	Residential neighborhoods with private shared facilities	Inclusive gathering spaces and recurring community activities
Green Environment	Greenery is already a common township proposition	Make connected landscapes and active outdoor experiences central to daily life
Commercial	Retail and food-and-beverage	A complementary commercial ecosystem designed around everyday use

	activity distributed across urban corridors	

SLIDE 11 —

Different lives.
Different aspirations.
One shared desire for a place where life has more to offer.

SLIDE 12 —

02 — SITE & SURROUNDING REVIEW

SLIDE 13 — SITE CONTEXT

TANRISE CITY SIDOARJO | **SUNRISE RESIDENCE**

SLIDE 14 — ACCESSIBILITY

Sunrise Residence Sidoarjo occupies a strategic planning position within an established working urban environment, where industrial facilities, existing neighborhoods, and undeveloped land coexist.

Direction	Existing surroundings	Planning implication
West	Jalan Lingkar Timur and established neighborhood buildings	Main road frontage and potential access visibility
West	Industrial buildings and warehousing	Need to consider noise, servicing, and land-use buffers
East	Agricultural land and open areas	Opportunity for open landscape views, subject to future development

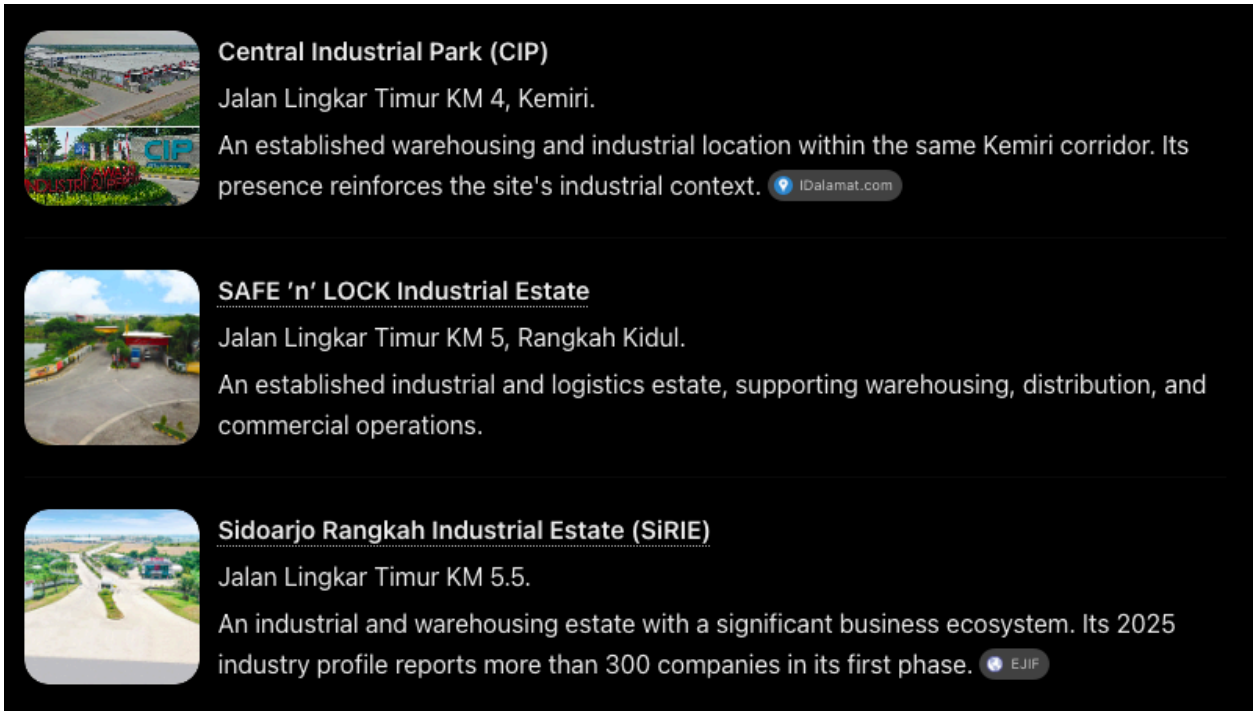

South	Mixed vacant land, buildings, and vegetation	Boundary treatment and future adjacent development need review

---

SLIDE 15 — THE SURROUNDING ECOSYSTEM

The industrial ecosystem is one of the clearest verified characteristics of this location.

Three relevant developments along the Lingkar Timur corridor are:

SLIDE 16 — SITE READINESS

Assessment	Finding	Implication for Tanrise City
Industrial Activity	Strong existing industrial and logistics presence	Potential employment-linked market, but greater attention to residential comfort
Existing Housing	Established neighborhoods west of the road	Opportunity to complement the existing residential environment

Land Character	Open agricultural parcels remain near the site	Opportunity for landscape-led planning; surrounding land-use changes remain uncertain
Daily Services	Schools and basic retail exist along the corridor	Integrated daily conveniences could support residents
Lifestyle Destinations	Major shopping and recreation destinations exist across Sidoarjo	Potential to differentiate through more distinctive and accessible activities

---

SLIDE 17 — DESIGN REFERENCES

Comfort, practicality, and a welcoming character.

The supplied architecture and clubhouse materials provide useful reference principles:

- Contemporary forms with clear, simple detailing.
- Natural lighting and ventilation.
- Practical layouts that balance comfort and privacy.
- Warm tropical materials and architectural accents.
- Shared spaces with an approachable, hospitality-inspired atmosphere.

SLIDE 18 —

03 — COMPETITOR & CORRIDOR BENCHMARKING

SLIDE 19 — BENCHMARKING FRAMEWORK

Five Developers. Five Different Approaches to Township Development

Greater Surabaya's property market is shaped by established developers competing through master-planned communities, residential accessibility, commercial destinations, and lifestyle integration.

Developer	Flagship developments	Primary corridors	Core strength
Ciputra Group	CitraLand Surabaya, CitraHarmoni, CitraGarden Sidoarjo	West Surabaya, Taman, Buduran	Integrated townships and master planning
Pakuwon Group	Pakuwon City, Grand Pakuwon	East & West Surabaya	Commercial anchors and destination development
Bakrieland	Kahuripan Nirwana	Central Sidoarjo, Buduran	Sidoarjo township development
Jaya Land	Puri Surya Jaya, Grand Surya	Gedangan, North Sidoarjo	Established local housing market
Intiland	Graha Natura, Amesta Living	West & East Surabaya	Nature-led and lifestyle-oriented living

Developer	Development model	Strategic lesson
Ciputra	Long-term master planning with residential, education, and commercial components	Integrated planning creates a recognizable township identity
Pakuwon	Residential development supported by substantial commercial destinations	Attractions can strengthen repeat visitation and recurring income.
Bakrieland	Residential and mixed-use development within a local township	Local market relevance and supporting infrastructure matter.
Jaya Land	Residential clusters positioned around established housing needs	Product affordability and practical value remain fundamental.

Intiland	Landscape, architecture, nature, and lifestyle-oriented development	Experience and environmental quality can differentiate homes

Developer	Revenue FY2025	YoY growth
Ciputra (CTRA)	Rp12.62T	+12.8%
Pakuwon (PWON)	Rp7.11T	+6.6%
Intiland (DILD)	Rp2.46T	−3.6%
Bakrieland (ELTY)	Rp1.43T	+16.2%
Jaya Land	Not disclosed	—
Tanrise (RISE)	Rp410.7B	+12.3%

SLIDE 20 — CIPUTRA GROUP

A Great Township Grows Beyond Its Homes.

Key Developments
CitraLand Surabaya, CitraHarmoni, CitraGarden Sidoarjo.

Competitive Strength
Ciputra builds long-term township value by integrating residential communities with commercial destinations, educational facilities, and supporting infrastructure.

Rp12.62T

FY2025 recurring-revenue contribution

SLIDE 22 — BAKRIELAND DEVELOPMENT

Building a Community Requires More Than Residential Scale.

Key Development
Kahuripan Nirwana, Sidoarjo.

Competitive Strength
An established Sidoarjo township combining landed housing, apartments, shophouses, food courts, and supporting facilities.

2,000 ha

Stated long-term development potential of Kahuripan Nirwana, not completed development area

---

SLIDE 23 — JAYA LAND

Understanding the Everyday Value of a Home

Key Developments
Puri Surya Jaya, Grand Surya, and other Sidoarjo residential products.

Competitive Strength
Local residential offerings that demonstrate the importance of practical layouts, location, household budgets, and attainable ownership.

Rp465M

Registered Grand Surya Jupiter house price: 36 m² building / 73 m² land

---

SLIDE 24 — INTILAND DEVELOPMENT

When Nature and Lifestyle Become Part of Everyday Living.

Key Developments
Graha Natura, Amesta Living, Graha Famili.

Competitive Strength
Differentiated residential environments integrating landscape, green open space, recreation, and lifestyle facilities into the living experience.

86 ha
Graha Natura development area

Rp1.61T
FY2025 group marketing sales

SLIDE 25 —

The ambition goes beyond building a township. It is about creating a destination that becomes part of how people live, explore, and connect.

SLIDE 26 — BSD CITY

Building an identity around an ecosystem.

BSD City connects residential development with education facilities and the Digital Hub platform.

Strategic lesson

Specialized positioning requires institutions, infrastructure, partners, and sustained activity.

Application for Tanrise

A technology, education, or enterprise direction should be supported by:

- Proven demand.
- Relevant anchor partners.
- Appropriate infrastructure.
- A viable operating model.

The identity must be supported by what the development can deliver.

SLIDE 27 — PIK

Creating a recognizable reason to visit.

PIK's published lifestyle offering includes themed culinary and leisure destinations, supported by coordinated visitor programming.

Strategic lesson

Distinctive experiences can introduce people to a place before they consider living there.

Application for Tanrise

Explore a signature destination that:

- Serves residents.
- Welcomes surrounding communities.
- Encourages repeat visits.
- Has sustainable commercial demand.

A destination should contribute to the neighborhood throughout the week.

SLIDE 28 — BENCHMARK SYNTHESIS

Integration establishes relevance. A clear role creates distinction.

Reference	Lesson for Tanrise
Agung Sedayu Group	Coordinate homes, services, and destinations.
Agung Podomoro Land	Make the lifestyle promise visible.
Summarecon	Support residential life with daily facilities.
Sentul City	Express environmental identity through usable spaces.
Pakuwon	Understand regional expectations of convenience.
BSD City	Build specialized identity through an ecosystem.
PIK	Give the place a recognizable experience.

SLIDE 29 — COMPARABLE CORRIDOR STUDIES

Understand the mechanism behind the growth.

Jakarta–Tangerang / BSD–Serpong
A reference for investigating the relationship between employment, education, services, and residential development.

Greater Jakarta–Sentul
A reference for investigating how landscape and recreation contribute to residential and destination identity.

Surabaya–Sidoarjo
The application context for testing combinations of employment access, housing, services, and leisure.

SLIDE 30 —

04 — MARKET GAPS & OPPORTUNITIES

SLIDE 31 — OPPORTUNITY FRAMEWORK

Industry 4.0: As Industries Evolve, So Should the Way People Live.

Everyday Convenience
Can the development make essential services easier to access?

Active Community Life
Can shared spaces and regular activities support meaningful connections?

Comfortable Outdoor Living
Can landscape and public space improve the everyday residential experience?

SLIDE 32 — OPPORTUNITY 01: EVERYDAY CONVENIENCE

Make daily life easier to organize.

Explore demand for:

- Homes connected to useful daily services.

- Practical access to education and healthcare.
- Clear and safe internal movement.
- Convenient dining and household retail.

SLIDE 33 — OPPORTUNITY 02: ACTIVE COMMUNITY LIFE

Create shared spaces with a purpose.

Explore demand for:

- Flexible gathering spaces.
- Family recreation.
- Sports and wellbeing activities.
- Local markets and neighborhood events.

SLIDE 34 — OPPORTUNITY 03: COMFORTABLE OUTDOOR LIVING

Make outdoor space useful every day.

Explore opportunities for:

- Shaded walking routes.
- Accessible play and recreation areas.
- Comfortable seating and resting points.
- Landscape integrated with drainage and maintenance.

SLIDE 35 — THE STRATEGIC OPPORTUNITY

Bring the essentials of a better day together.

A potential role for Tanrise City Sidoarjo is to connect homes, services, recreation, and community within a coordinated environment.

Sunrise Residence Sidoarjo can express this direction through the residential experience—from the home itself to the spaces and services around it.

Working opportunity

A connected place to live, grow, and belong.

SLIDE 36 —

05 — CITY POSITIONING & STRATEGIC DIRECTION

SLIDE 37 — POSITIONING ALTERNATIVES

The City of Better Living

A Better Life in Motion.

A family township built around active living, recreation, education, and connected daily services.

SLIDE 38 — RECOMMENDED POSITIONING

TANRISE CITY SIDOARJO

A City That Moves Life Forward

Through **Sunrise Residence Sidoarjo**, this proposition becomes a residential experience shaped around practical needs and a welcoming community environment.

The promise

A City That Moves Life Forward

Economic foundation: Sidoarjo’s manufacturing, logistics, commerce, and professional economy.

Experiential identity: Active living, green public space, family recreation, and community activity.

Long-term anchors: Education, enterprise, and a thriving neighborhood town centre.

SLIDE 39 — THREE DEVELOPMENT PILLARS

Everyday Ease
Connect homes with the services and routes people use most.

Shared Vitality
Create welcoming places for recreation, gathering, and local activity.

Lasting Care
Maintain the quality of the environment through dependable infrastructure and estate management.

Together, these pillars guide how the development is planned, experienced, and sustained.

SLIDE 40 — TRANSLATING THE PILLARS INTO PLACE

Every promise needs a physical response.

Pillar	Potential Development Response
Everyday Ease	Convenient daily retail, legible access, and routes connecting homes with shared facilities.
Shared Vitality	Recreation areas, flexible gathering spaces, and a recognizable community destination.
Lasting Care	Maintainable landscapes, drainage infrastructure, service access, and a clear management framework.

Facility sizes, land-use proportions, and locations should follow demand analysis and technical assessment.

SLIDE 41 — A SIGNATURE COMMUNITY DESTINATION

Give the development a place to come together.

Explore a community destination combining selected elements such as:

- Everyday dining and local retail.
- Flexible gathering and event space.
- Family recreation.
- Landscaped outdoor areas.

Its role is to serve residents and offer surrounding communities a relevant reason to visit.

Begin with uses that can sustain regular demand. Expand as the community grows.

SLIDE 42 — DEVELOPMENT SEQUENCE

Build confidence through the first residential experience.

Establish the Foundation
Deliver access, utilities, drainage, homes, and essential services.

Activate the Community
Introduce shared spaces, recreation, and appropriate activities as occupancy grows.

Expand the Offering
Add larger commercial or institutional components when demand and partnerships justify them.

SLIDE 43 — PROPOSED VISION & MISSION

Vision

To become a connected community in Sidoarjo where people can build a better everyday life.

Mission

- Develop homes and shared environments around practical household needs.
- Connect residential life with relevant services, recreation, and local activity.
- Sustain the quality of the place through responsible planning and dependable management.

Sunrise Residence Sidoarjo brings this ambition into the everyday experience of its residents.

SLIDE 44 — VALIDATION & ALIGNMENT

Establish the evidence behind the direction.

Site & Planning
Confirm boundaries, access, permitted uses, constraints, and masterplan status.

Market & Customers
Establish catchment demographics, affordability, buyer motivations, and competing supply.

Commercial & Delivery
Test product economics, partnerships, operating requirements, and phasing.

Management Alignment
Agree on priority audiences, development ambition, positioning, and approval criteria.

SLIDE 45 — CLOSING

TANRISE CITY SIDOARJO

A Better-Connected Everyday Life

Through Sunrise Residence Sidoarjo, the opportunity is to connect well-considered homes with relevant services, shared activity, and dependable care.

A place to live. A community to grow with.
